<b>I am a...</b>	Web developer with 7 years experience in operational analysis and a lifetime of teamwork through soccer. I love to learn about new technologies and learning to leverage them in a project from start to finish.		
<b>Technical Skills</b>	Node.js, Express, JavaScript, jQuery, React.js, React Native, Git, Github, mongoDB, MySQL, Firebase, HTML, CSS, Bootstrap, Media Queries, APIs, JSON, REST, AJAX, Arduino, Neopixels.		
<b>Experience</b>	<b>Marvel Clash</b>		2016
	I collaborated on a 3-person team to create a browser based RPG style multiplayer game and was responsible for constructing our database, querying and storing Marvel API data, and developing Adafruit Flora/Neopixel functionality.		
	<a href="https://github.com/christiancasal/marvel-clash">https://github.com/christiancasal/marvel-clash</a> <a href="https://mighty-caverns-99251.herokuapp.com/game">https://mighty-caverns-99251.herokuapp.com/game</a>		
	<b>New York Times w React</b>		2016
	Article browser featuring the NYT API, Node.js/express for back-end, React for UI, and mongoDB for saving articles.		
<b>Previous Experience</b>	<a href="https://github.com/christiancasal/react-nyt">https://github.com/christiancasal/react-nyt</a>		
	<b>LIRI</b>		2016
	A command line node app to return tweets, song information or movie information using Request, Spotify, and Twitter npm packages.		
	<a href="https://github.com/christiancasal/liri">https://github.com/christiancasal/liri</a>		
	<b>Healthfirst (New York, NY)</b>		2009-present
<b>Education</b>	Accounts Receivable Analyst, Finance Operations Analyst, Enrollment Operations		
	<b>Super Soccer Stars (New York, NY)</b>		2010-present
	<b>Rutgers University</b>		2016
	Certificate in Web Development – Rutgers Coding Bootcamp
